

LESSON 4:
INNOVATION
CHALLENGE 1

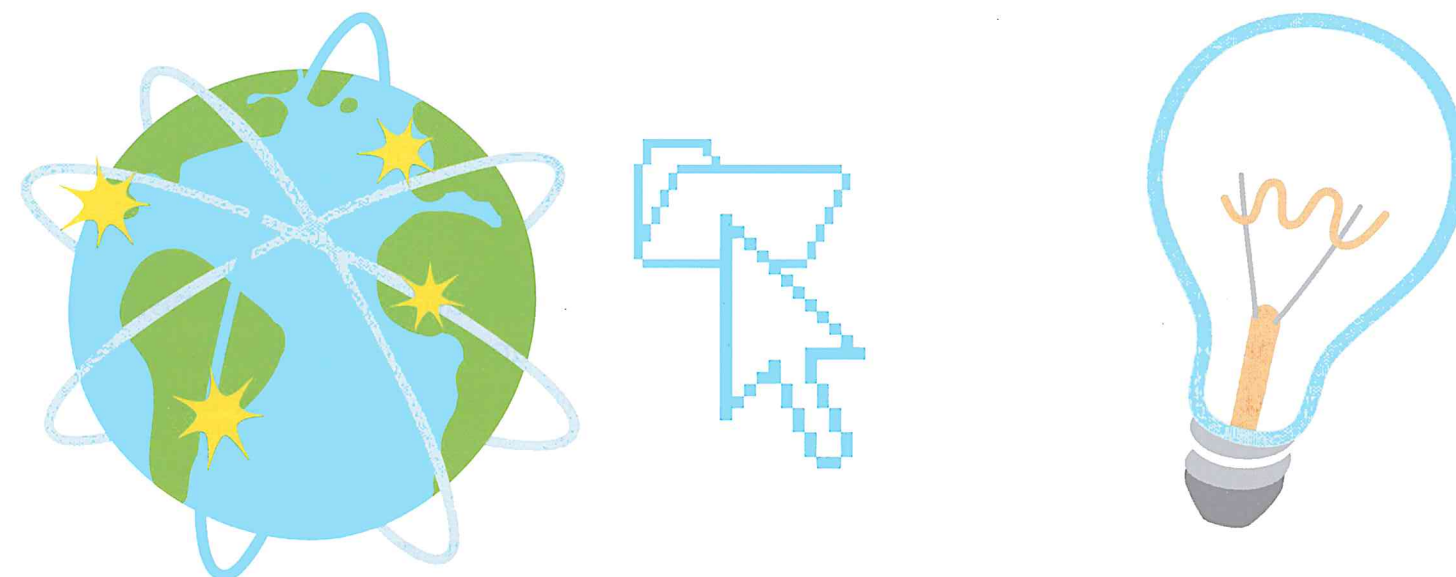

Invent something that no one has thought of before. You can make up something imaginary, or start with something that already exists and change it into something new. But you have to draw or describe your invention so that the rest of the class can understand what it is.

Your challenge is to invent something to meet this need:
Children like to play after school, but sometimes they have too many things to do to have time to play. Invent something that would let children have more time after school to play.

Draw or describe your invention in the space provided
