

LESSON 4:
INNOVATION
CHALLENGE 11

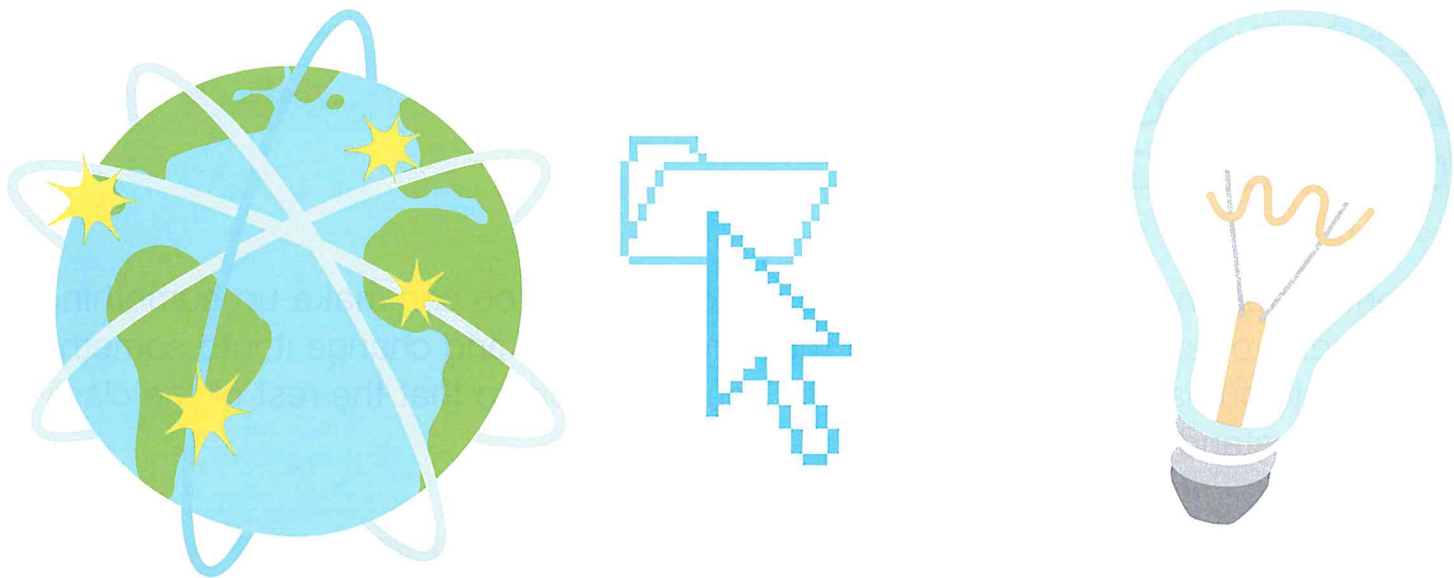

Invent something that no one has thought of before. You can make up something imaginary, or start with something that already exists and change it into something new. But you have to draw or describe your invention so that the rest of the class can understand what it is.

Your challenge is to invent something to meet this need:
Children in school need to learn things about their community and the world they live in, but learning a lot of information is hard work. Invent a way for children to learn things in school that would be easy and more fun.

Draw or describe your invention in the space provided
