

LESSON 4:
INNOVATION
CHALLENGE 2

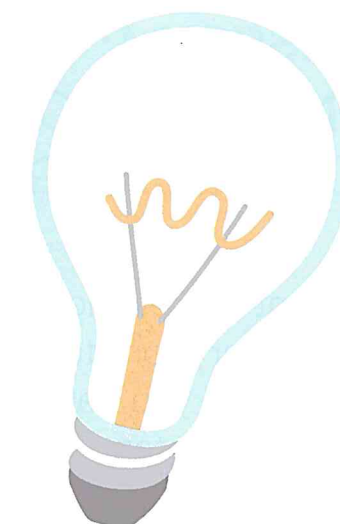

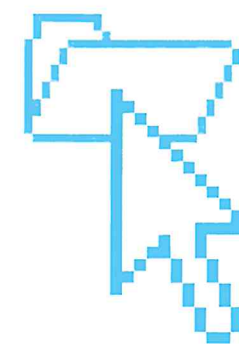

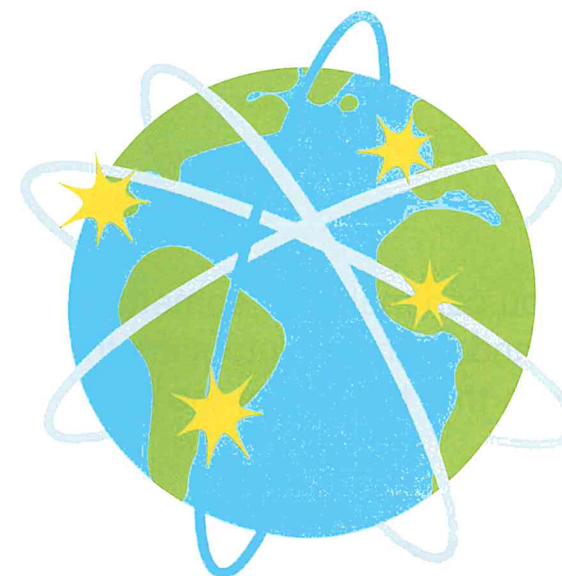

Invent something that no one has thought of before. You can make up something imaginary, or start with something that already exists and change it into something new. But you have to draw or describe your invention so that the rest of the class can understand what it is.

Your challenge is to invent something to meet this need:
Teachers need to be able to tell parents how their children are doing in school, but sometimes children lose reports and notes that teachers send home. Invent something that would help teachers tell parents about what is happening at school.

Draw or describe your invention in the space provided

A large empty rectangular box with a blue border, intended for drawing or describing the invention.
