

LESSON 4:
INNOVATION
CHALLENGE 3

Invent something that no one has thought of before. You can make up something imaginary, or start with something that already exists and change it into something new. But you have to draw or describe your invention so that the rest of the class can understand what it is.

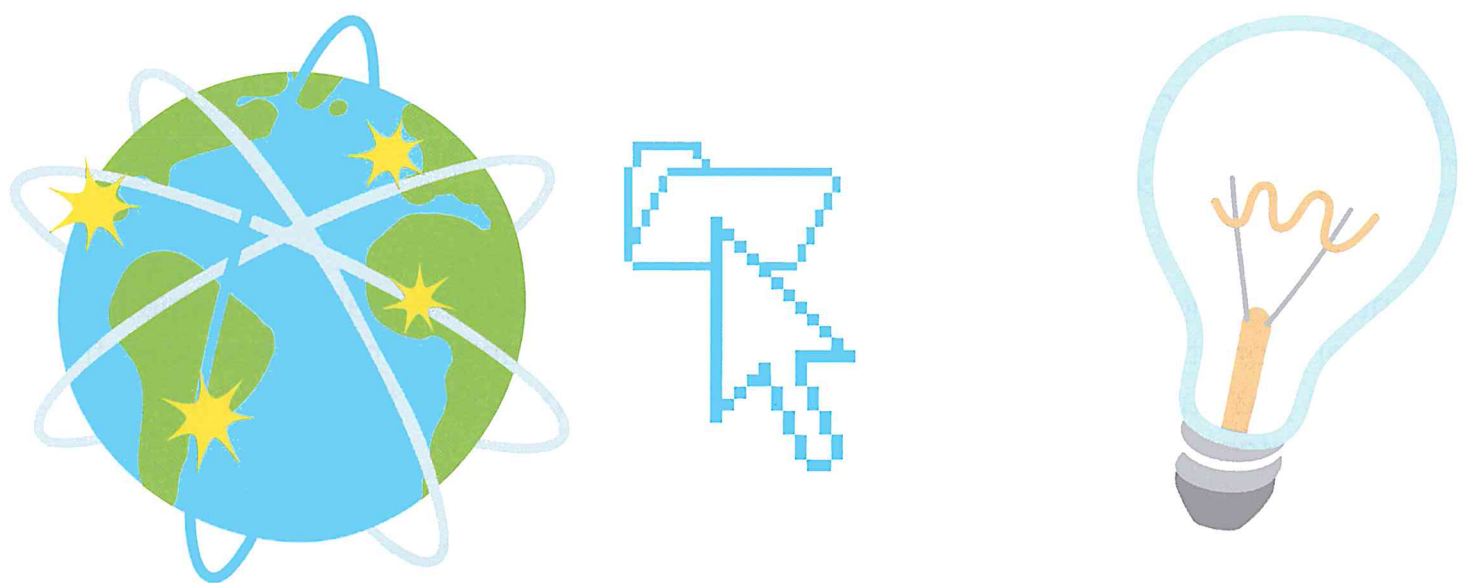

Your challenge is to invent something to meet this need:

Many children like to play games on a computer or video, but when they play video games they don't get enough exercise. Invent a way for people to have fun playing video games and to get plenty of exercise at the same time.

Draw or describe your invention in the space provided
