

LESSON 4:
INNOVATION
CHALLENGE 4

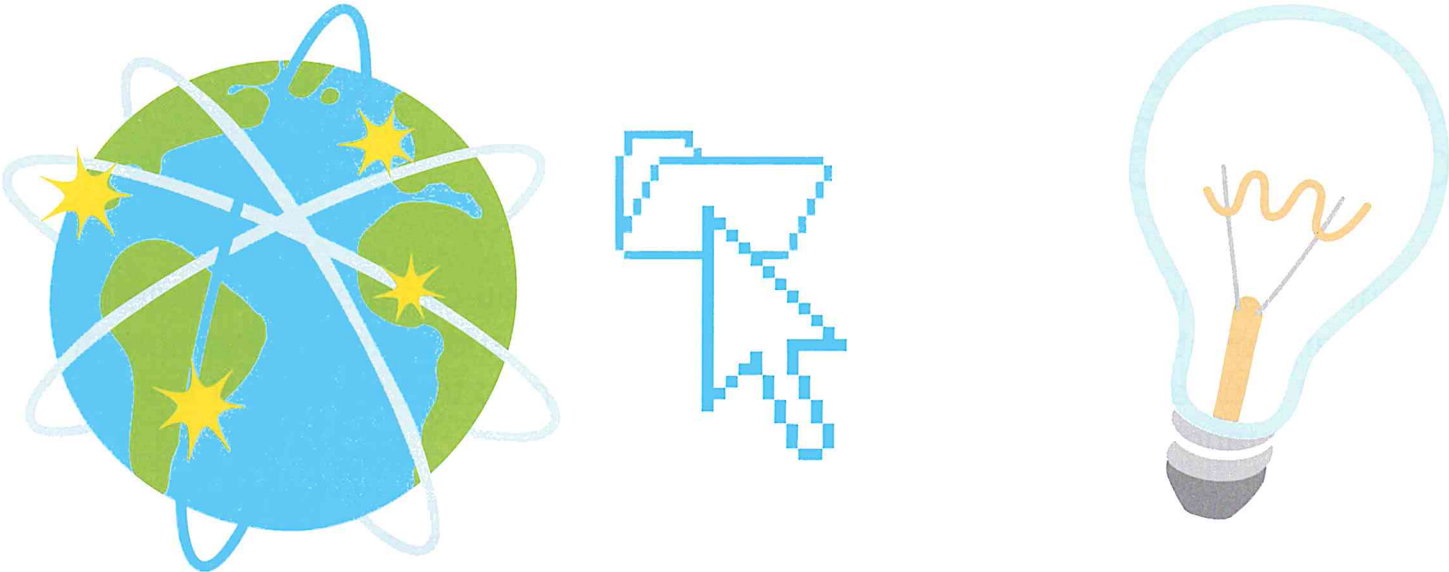

Invent something that no one has thought of before. You can make up something imaginary, or start with something that already exists and change it into something new. But you have to draw or describe your invention so that the rest of the class can understand what it is.

Your challenge is to invent something to meet this need:
Some children have their own money to buy things that they want, but they lose the money when they are playing. Invent a way for children to keep their money safe so they will not lose it, but they will have it when they need it.

Draw or describe your invention in the space provided
