

LESSON 4:
INNOVATION
CHALLENGE 6

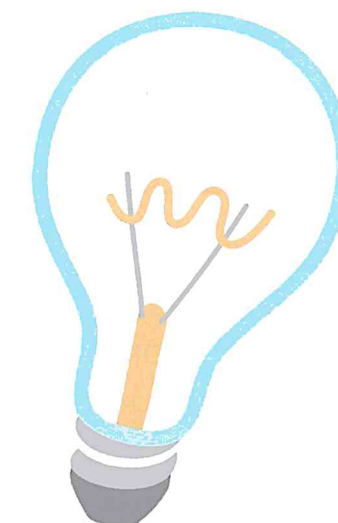

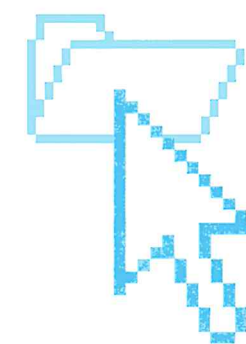

Invent something that no one has thought of before. You can make up something imaginary, or start with something that already exists and change it into something new. But you have to draw or describe your invention so that the rest of the class can understand what it is.

Your challenge is to invent something to meet this need:
Children like to walk or ride a bike to places that are not near their home, but sometimes the traffic makes it dangerous. Invent a way for children to travel around their hometown without going through dangerous traffic.

Draw or describe your invention in the space provided
