

LESSON 4:
INNOVATION
CHALLENGE 8

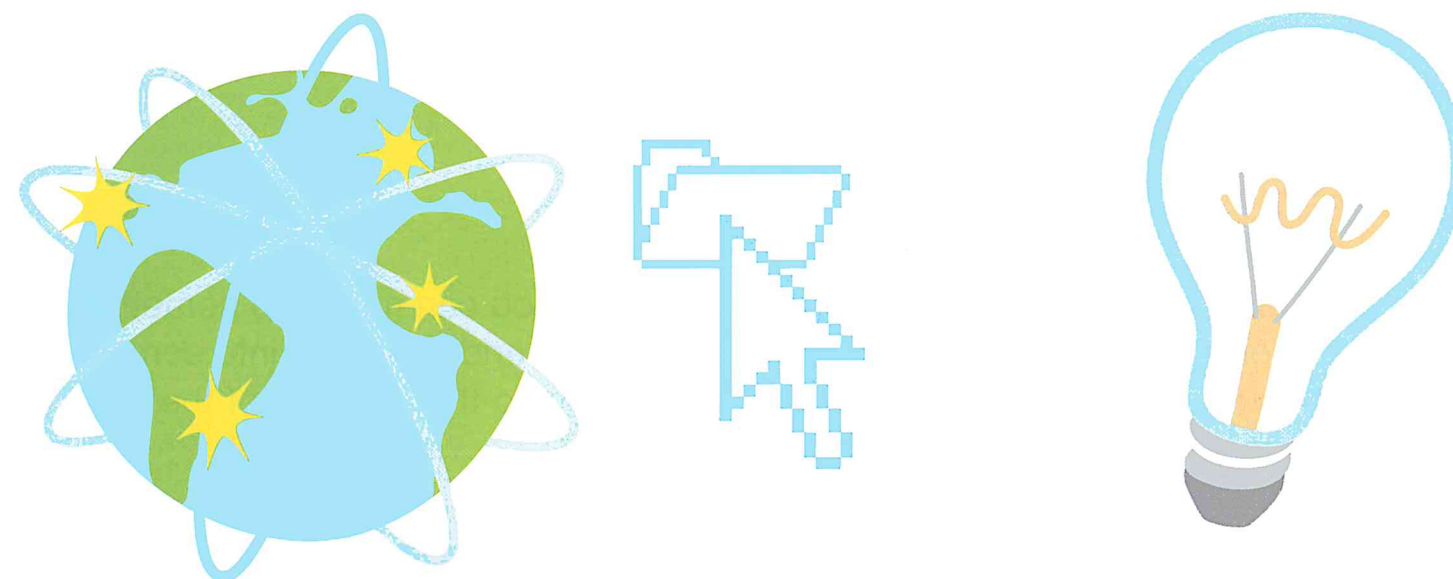

Invent something that no one has thought of before. You can make up something imaginary, or start with something that already exists and change it into something new. But you have to draw or describe your invention so that the rest of the class can understand what it is.

Your challenge is to invent something to meet this need:
Children like to kick and throw balls as far as they can, but they don't like to go and fetch the balls so that they can throw them again. Invent a way for children to get their balls back without having to run after them.

Draw or describe your invention in the space provided
