

LESSON 4:
INNOVATION
CHALLENGE 9

Invent something that no one has thought of before. You can make up something imaginary, or start with something that already exists and change it into something new. But you have to draw or describe your invention so that the rest of the class can understand what it is.

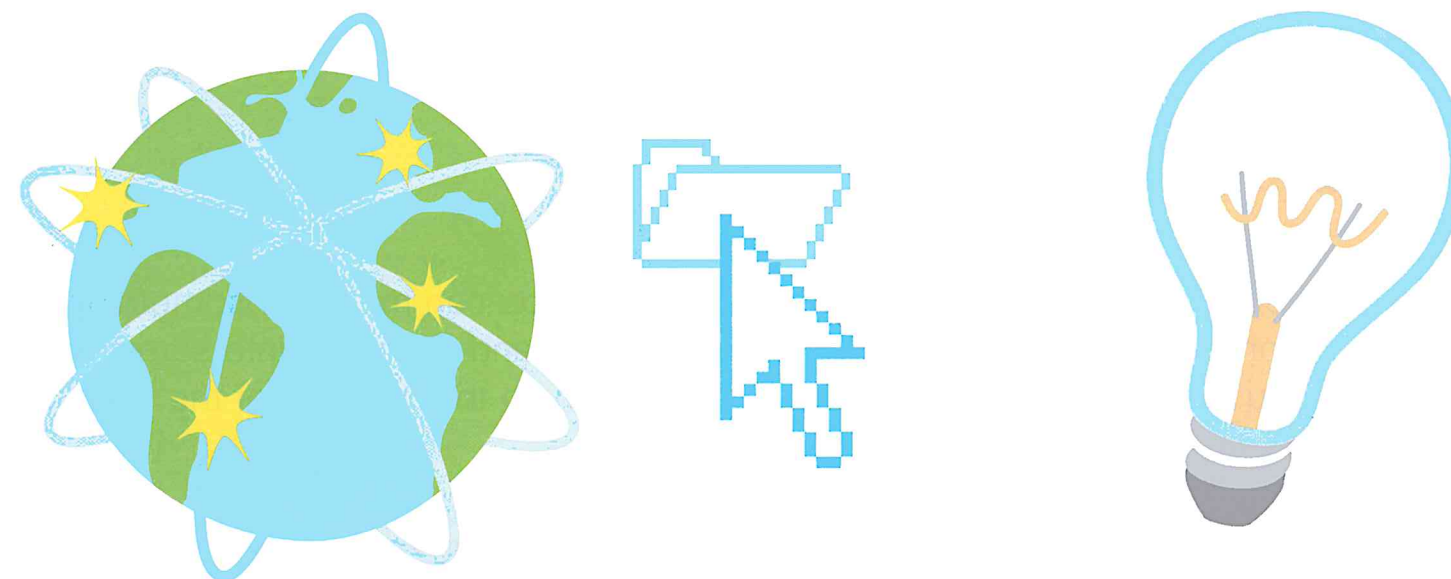

Your challenge is to invent something to meet this need:

Children like to get new clothes but many kids don't like to go shopping and try things on at a store. Invent a way to buy clothes that fit without having to go to the store.

Draw or describe your invention in the space provided
